Regional Data Overview

Migration data in Europe

A wide range of migration data is collected and disseminated in Europe at national and, sometimes, sub-national level. Institutional and legal frameworks have been developed by the European Union (EU) with the aim of ensuring that migration data are of high quality, comparable across countries as a result of harmonization (as established in the legal basis), and easily accessible. A continuous process of political dialogue is in place to ensure that the frameworks keep pace with increased demands for information and knowledge.

EVALUATION

The image features the word "EVALUATION" in a bold, blue, hand-drawn font. The letters are arranged in a circular pattern, with the top half of the word curving upwards and the bottom half curving downwards. In the center of this circular arrangement, the word "EVALUATION" is written again in a white, bold, outlined font, with a thick black border. The background is plain white.
