Regional Data Overview

Migration data in Europe

A wide range of migration data is collected and disseminated in Europe at national and, sometimes, sub-national level. Institutional and legal frameworks have been developed by the European Union (EU) with the aim of ensuring that migration data are of high quality, comparable across countries as a result of harmonization (as established in the legal basis), and easily accessible. A continuous process of political dialogue is in place to ensure that the frameworks keep pace with increased demands for information and knowledge.

HOW COUNTRIES ARE PROMOTING integration of immigrants

Měření integrace migrantů

Two key data sources measure integration:	Countries the data source covers	Indicators the data source covers	Integration areas the indicators cover	Years covered
OECD and EU measure outcomes <p> + provides information on migrants' economic, social, cultural, and political integration - aggregate data may not reflect the integration of particular migrant groups </p>	 41	 27	    5 Social cohesion Employment Civic engagement Social inclusion Education and skills	
Note: OECD and EU data on integration covers mostly 2008-2013, but some data on a few indicators cover other years. <p> Migrant Integration Policy Index measures policies <p> + provides information on the legal and political framework for integration - data do not indicate implementation of integration policies </p> </p>	 38	 167	    Labour market mobility Family reunion Anti-discrimination Political participation Long-term residence Access to nationality Education Health	

Source: Own elaboration based on OECD and EU, 2015; MIPEX, 2012 and 2015.
